Covid Pledge on 8 October 2020- by NSS Unit No 97

Our goal is to have every community member understand how interconnected we all are, especially when it comes to managing through COVID-

19. Most of us are not medical professionals, but we all have a role to play in providing for the health and safety of our community. It is up to each of us to conscientiously do our part. To align the health and safety expectations with the well-being of each member of our community, and to provide all greater assurances as to what they can expect from each other in terms of a commitment to these standards, 80 student volunteers of NSS Unit No 97 took the pledge to fight against the COVID – 19 pandemic.
