National Seminar on ‘PCOS- a Major Obstacle in Women Empowerment’

National Seminar on ‘PCOS- a Major Obstacle in Women Empowerment’ was organized by Department of Zoology in association with Sarada Krishna Homeopathic Medical College, Kulasekharam on 20 February 2020. Polycystic ovary syndrome (PCOS) is a problem with hormones that happens during the reproductive years. PCOS is due to the small fluid-filled cysts contain immature eggs. This is significant because PCOS is linked to other serious health conditions, such as metabolic and cardiovascular comorbidities, infertility, pregnancy complications Trusted Source, psychological disorders, and cancer Many women have PCOS but don’t know it. In one study, up to 70 percent of women with PCOS hadn’t been diagnosed .To create an awareness among women students this seminar was organized.

Cancer Awareness Seminar

Cancer Awareness Programme was organized on International women's day by Department of Zoology in association with Kuzhithurai Integral Development Social Services (KIDDS) on Forenoon of 6 March 2020. The Resource person is Prof. Angel, St. Xavier's Catholic College of Nursing, Chunkankadai. The Resource person specified the importance of preventing, screening and treating cancer. Screening aims to identify individuals with findings suggestive of a specific cancer or pre-cancer before they have developed symptoms. A correct cancer diagnosis is

essential for appropriate and effective treatment because every cancer type requires a specific treatment regimen.

Women's Day Celebration

Women's day was celebrated by conducting various competitions to Zoology students on 6 March 2020 AN. . India is a nation where women are equalized with the goddess. According to the Vedas, they are the base of the human race. A woman plays an important role in maintaining an entire family. They have proved themselves in almost all fields and sectors. But their further empowerment is a matter of concern for the nation.
